

Facts about AmeriSciences Products

1. Leading physicians and nutritional scientists created all AmeriSciences formulations.
2. All AmeriSciences products are based upon the most recent scientific and medical research including:
 - A. *The Journal of The American Medical Association*
 - B. *The New England Journal of Medicine*
 - C. *The Journal of Clinical Nutrition*
3. All AmeriSciences products are formulated to dissolve in the digestive system within 45 minutes to insure maximum absorption and bioavailability.
4. Only the highest quality ingredients available are used in AmeriSciences products and contain no artificial preservatives or dyes.
5. AmeriSciences products are manufactured to over-the-counter (OTC) pharmaceutical equivalent standards, they are shelf life tested to ensure that what we say on the label is really in the bottle, even on the last day of its two-year shelf life.
6. OTC pharmaceutical grade products are manufactured to a much higher quality standard than most supplements on the market today. Only a very small percentage of nutritional supplement manufacturers perform to these high standards.
7. AmeriSciences manufacturers are monitored by the FDA and are in compliance with FDA manufacturing standards.
8. Rigorous quality assurance tests, including microbiological and chemical analyses, are performed and documented throughout the manufacturing process to ensure potency, safety and consistency from batch-to-batch and from bottle-to-bottle.
9. The AmeriSciences products are exclusive and only available through Independent Marketing Consultants, and not available through retail stores.
10. The AmeriSciences products are complementary and designed to be taken together with no danger of excess intake.
